

## To order a copy of an image

You can order a copy of the images of your imaging examinations on DVD or on a memory stick. Picture viewer will also be stored on the disk. **The viewer works on Windows operating systems** (95, 2000, XP, 7, 10 and 11). If you want to use the images viewer on an Apple computer, make an order separately from the Meilahti Tower Hospital X-ray Unit.

The order can be placed by providing this form to any X-ray Unit within Diagnostic Center or by posting the form to any of the units listed to the right.

If the order is placed by someone else than the patient or his/her guardian, a free-form letter of authority, signed by the patient is also required.
